Reviewer’s report
Title: Systematic reporting to improve the emergency medical response to major incidents: a pilot study

Version: 0 Date: 19 Sep 2017

Reviewer: Mostafa Omaish

Reviewer's report:
The manuscript is considered a good start to highlight the importance of standardised report of incidents. The forthcoming challenge is including all factors affecting disasters outcome such as cultural and political factors across different countries.

At the stage, all reached conclusion from this study should be considered preliminary due to small sample size.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
Quality of written English

Please indicate the quality of language in the manuscript:
