Reviewer’s report

Title: Ultrasound-guided identification of the cricothyroid membrane in a patient with a difficult airway: A case report

Version: 0  Date: 11 Dec 2017

Reviewer: Geert-Jan van Geffen

Reviewer’s report:

The authors described a novel use of ultrasound for identification of the cricothyroid membrane in a patient with difficult airway.

The case report is well written, concise and clear. The information is provided in a structured way and the motivation for the application of this technique is well defined.

The provided images contribute to the value of this manuscript.

I have little to add to this nicely written manuscript!

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
