Reviewer's report:

Dear Authors,

Thank for resubmitting your paper, and making the changes requested. Please see my comments below to further improve your paper

* It need English proof reading throughout and checking for misspelling and typos

* The IQR is a range (single value), what is reported it the First and third Quartiles

* How did you evaluate your regression model: good of fit and calibration?

* I suggest adding more keyword and MeSh terms

* I would add the total numbers throughout the tables (top of the column) it gives more clarity to the readers.

* I would describe your EMS system more carefully, what is the level of qualification? Who can be a paramedic? …etc

Kindest regards
