Title: Public Knowledge of People Visiting Emergency Department Regarding Stroke Symptom and Risk Factors

Version: 0 Date: 17 Apr 2019

Reviewer: Sebastien Beaune

Reviewer's report:

The article about knowledge over stroke in a region of IRAN is interesting. It could be shorter without loss of information; Results on demographic datas could be in a table. Table 1 and 2 could make one table.

Discussion is way too long, with make the message unclear.
