Reviewer’s report

Title: Patient’s perception of kidney stone prevention within the emergency department and its adherence factors: A single institution study.

Version: 0 Date: 18 Jul 2019

Reviewer: Wisit Cheungpasitporn

Reviewer's report:

Revised manuscript is much improved.

I reviewed responses to reviewer which are acceptable.

However, there is minor point that should be corrected.

- Reference 4 is currently outdated from 2013.

"Fluid intake should be increased to achieve a daily urine output of 2 liters" is acceptable, but based on 2013 guideline and expert opinions.

- Also, fluid intake recommendation has been updated to "Fluid amount: 2.5-3.0 L/day", given reduced risk of incident kidney stones among individuals with high fluid consumption and increased water intake appears to be generally safe based on meta-analysis of 9 studies (2 RCTs and 7 observational studies). Please see PMID: 26022722

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
