Comments:

1. State the time and place of the research in the title.

2. It seems to be one of the best articles I’ve read. The results of this study are widely used in health system policy making and planning.

3. Please remove the abbreviation section of the abstract and add it at the end of the article after concluding.

4. Please also make a comparison with previous studies in the discussion section.

5. Please use more references, especially from 2016 to 2019 years.

6. Almost the comments of the previous reviewers have been applied.

The paper is very well written and easy to understand.

Thank You!
