Reviewer's report

Title: Bayesian Meta-analysis of Comparative Diagnostic Test Accuracy Studies

Version: 4 Date: 8 June 2015

Reviewer: Yemisi Takwoingi

Reviewer's report:

Minor essential revisions
1. I can't find the change the authors made in response to my previous comment 1 related to the background. They say they have removed the reference to the Cochrane Handbook for Systematic Reviews of DTA from page 1 lines 44-46 but it is still there.

2. In the discussion, the new text (page 13 line 44) needs checking for typos: "simulation studies" instead of "simulation results" and "their" instead of "there".

Discretionary revisions
3. I can't find the change the authors made in response to comment 13 that they have replaced "trial" with "study".

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
