Reviewer's report

Title: Eliciting parental support for the use of newborn blood spots for pediatric research

Version: 4 Date: 4 January 2016

Reviewer: William Siero

Reviewer's report:

As stated in all of the reviews this paper is of high quality and represents an important contribution to the field. It has been further improved following minor revisions and I would strongly support its publication.

Minor Essential Revisions:
“For” is missing from the following sentence on page 15, line 298 “making it a great resource population based studies.”

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
