Title: Programme Reporting Standards (PRS) for improving the reporting of sexual, reproductive, maternal, newborn, child and adolescent health programmes

Version: 1 Date: 14 Jun 2017

Reviewer: Jessica Gleason

Reviewer's report:

I appreciate the care with which the authors attended to reviewer comments, and am satisfied that my concerns have been addressed. The revised version of the methods provides better clarity related to the Delphi process and later technical consultation. I think this will be an excellent addition to BMC Medical Research Methodology.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
