This is a systematic review of the Reporting of the Translation and Cultural Adaptation Procedures of the Addenbrooke's Cognitive Examination Version III (ACE-III) and its predecessors.

The reason to do this is unclear. How it could change the practice and how one can ameliorate the application of the ACE-III?

Authors use MTRQ and MCARQ and it seems that with this paper they do not propose nothing new from the methodological point of view. They only apply an existing tools.

Some more explanations are needed about "users in co-production" - what did they mean?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
