This paper looks at ED crowding in a busy European ED.

The authors use the term wait time for the time spent in the ED. That will likely be confusing to the casual reader. It is acknowledged that the authors define that term but substitution of a term such as ED LOS (ED length of stay) or even 'dwell' time might be more fitting.

The author's provide some appropriate information about their ED. What is missing is the presence or absence of significant boarding. From your data, it appears there is no boarding of inpatients in the ED (LOS maximum was 5 hours). As boarding of inpatients is a major factor in ED LOS in some countries such as the US, Canada and Australia, the authors should comment on their own experience. If indeed there is no boarding of inpatients (also known as access block), there this paper is of greater interest as it defines factors in the absence of boarding.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
