Yes - current version is technically sound

PEER REVIEWER COMMENTS:

GENERAL COMMENTS: Overall impression: This is a sound paper on description of a model for recruitment (consent to contact) and the authors have provided good data on recruitment model.

REQUESTED REVISIONS:
In light of the authors concern on the ethics raised on page 5, line 37, I'm interested to know whether and how their model meets ethical concerns raised? Additionally, the conclusion states that the model described is feasible and useful but this conclusion cannot be deduced from the
results, which merely describe the model. It would be helpful if the authors clarified how their results relate to the conclusion.

**Are the methods appropriate and well described?**
If not, please specify what is required in your comments to the authors.

Yes

**Does the work include the necessary controls?**
If not, please specify which controls are required in your comments to the authors.

Yes

**Are the conclusions drawn adequately supported by the data shown?**
If not, please explain in your comments to the authors.

Yes

**Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?**
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
