Reviewer’s report

Title: Patient information, communication and competence empowerment in oncology (PIKKO) – Evaluation of a supportive care intervention for overall oncological patients. Study protocol of a non-randomized controlled trial.

Version: 1 Date: 28 Apr 2020

Reviewer: Rainer Leonhart

Reviewer’s report:

A very good revision of the work. All questions from the first round were answered sufficiently. The manuscript has been revised accordingly and I am now much clearer than in the first version. No new points of criticism have come to my attention while reading it. So I would suggest a publication without revision.

It will be exciting to read the results in a hopefully timely publication. Good luck.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
