Title: Validity and bias on the online Active Australia Survey: Activity level and participant factors associated with self-report bias

Version: 1 Date: 28 Nov 2019

Reviewer: Volkert Siersma

Reviewer's report:

My previous review comments have been adequately answered and the suggested revisions are largely incorporated in the manuscript. A single wish remains: a scatterplot of AAS against the accelerometer assessment. This will give the reader a first hand opportunity to assess the relationship between these two assessment methods.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
