Reviewer's report

Title: Quality of asthma care under different primary care models in Canada: a population-based study

Version: 1 Date: 4 November 2014

Reviewer: M Osman YUSUF

Reviewer's report:

Discretionary Revisions:

As many readers may not be familiar with the different health care plans available in Canada, for the universality of the publication, it may benefit to add a very short introduction of the different health care systems mentioned in the paper.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
