Title: Evidence-based rules from family practice to inform family practice; the learning healthcare system case study on urinary tract infections

Version: 2  Date: 29 January 2015

Reviewer: Sinead Duane

Reviewer's report:

Minor Essential Revisions:
Throughout the text you use a lot of abbreviations inconsistently. Review the entire document ensuring that the first time you use a phrase you introduce the abbreviation.

Check spelling and grammar - are you referring to the 'learning healthcare system' which is spelled incorrectly at least twice.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
