Reviewer's report

**Title:** Collaboration of general practitioners and exercise providers in promotion of physical activity. A written survey among general practitioners

**Version:** 2  **Date:** 15 May 2015

**Reviewer:** Lilach Malatskey

**Reviewer's report:**

**Minor Essential Revisions**

1. How many questioners were sent? Was the group that responds to the questioner’s representative of the whole group of Dutch practitioners?

2. I think that an option of outdoor physical activity should be given in the questioner - it is very common for GP’s to offer that especially to low income patients and it is as good as referral to activity centers

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**
