Reviewer’s report

Title: Promoting sustainability in quality improvement: An evaluation of a web-based continuing education program in blood pressure measurement

Version: 0 Date: 14 Jul 2016

Reviewer: Hüseyin ELBı

Reviewer's report:

General

This paper presents the importance of web-based education for health care stuffs' regular continuing education and draws attention to how important it will be in the future. Overall the paper is well-written and interesting to read. Just a few discretionary comments/suggestions for clarification.

Minor essential revisions

1-The abbreviations and order of table numbers should be generally reviewed again.

Discretionary revisions

In the discussion;

1- It should be expressed more clearly the final sentence of the second paragraph starting with "Direct observation data revealed that while performance of certain techniques…." (p.12, lines 49-54)
Are the methods appropriate and well described? 
If not, please specify what is required in your comments to the authors.

Yes
