Reviewer’s report

Title: Factors associated with the use of Dietary Supplements and Over-the-counter Medications in Japanese Elderly Patients

Version: 0 Date: 08 Sep 2017

Reviewer: Sarah Alderson

Reviewer's report:

Dear Authors,

This is a simple, straight forward, well designed and well written report of your evaluation of OTC and dietary supplement/complementary medicine use in elderly patients in Japan. The results of this study make a good contribution to our understanding of the use of such products by an increasingly ageing population.

Thank you for your work.

Kind Regards

Joanna Harnett

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
