Title: Primary Care Multidisciplinary Teams in Practice: A Qualitative Study

Version: 1 Date: 02 Nov 2017

Reviewer: Sarah Alderson

Reviewer's report:

Thank you for asking me to review this revised manuscript. I am happy with the authors responses to my concerns and the changes made to the manuscript. I think it reads much better for an international audience and the background and discussion has been strengthened by the changes made. One very minor point is that in the abstract it still says 'interview data' was analysed. I would recommend taking out the interview or saying transcribed data.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
