Reviewer’s report

Title: Support needs of patients with obesity in primary care: a practice-list survey

Version: 1 Date: 09 Aug 2017

Reviewer: Christos Galanakis

Reviewer's report:

Dear Authors,

Thanks for the valuable opportunity to read this interesting manuscript.

The topic caught my attention and I was interested in reading your article immediately.

The overall structure of the manuscript is concise, clear, comprehensive, and convincing.

I also believe that the broader message that we could apply to our primary care practice come through clearly with a direct conclusion.

I regard this article to be of high interest to the BMC Family Practice target audience, decent methodological quality and posing important research questions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
Quality of written English
