Reviewer’s report

Title: Analytical typology of multiprofessional primary care models

Version: 1 Date: 10 Dec 2017

Reviewer: Susan McInnes

Reviewer's report:
This is a much improved manuscript and the authors should be congratulated for their work. Minor points for consideration:

Line 230: "We will return to these points" - Although reworded, I remain of the opinion that this is not appropriate
Line 348: "As observed in the introduction". This term is repeated 3 sentences later (Line 353) as "As stated in the introduction". One should be rephrased.
Line 355: Likewise, "on the one hand" is repeated in the following sentence (line 360) "On the other hand". One should be rephrased

CONCLUSION: Most of the conclusion should be part of the discussion. The final paragraph could be rephrased to comprise a conclusion.
