**Title:** Recruiting General Practitioners for palliative care research in primary care: real-life barriers explained

**Version:** 0 **Date:** 12 Nov 2018

**Reviewer:** Marilene Filbet

**Reviewer's report:**

This paper is a report of the barriers to involve GP in palliative care research. This topic is really crucial and needed before starting any research project in the field. The barriers are very well identified, and some are directly linked with the GP’s very busy agenda, and others with the Palliative care topic itself and could be compared at the barriers for the palliative care research in others settings.
