This is a local, multicultural paper, in a convenience sample al a medical conference. In fact the sample comes from several countries (different approaches to the theme? and for the fact that they attend a conference makes it special.

No convincing clues about what to do next.

I strongly advise the authors to make a national survey and then submit to BMC Family Practice or else to submit to a local journal.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes
