Reviewer’s report

Title: Toll-like receptor 4 Asp299Gly, Thr399Ile polymorphisms in Moroccan patients with inflammatory bowel disease

Version: 1 Date: 4 August 2014

Reviewer: Aysegul Kuskucu

Reviewer’s report:

Minor Essential Revisions

1- In abstract they gave the study population as 117 patients and 128 healthy unrelated blood donors but in article they said 114 IBD patients and 112 healthy unrelated blood donors, so they have to correct the numbers.

2- Researchers have done a meta-analysis, I think they have to change the article title

Major Compulsory Revisions

1- The manuscript needs to be seen by a statistician

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
