Reviewer's report

Title: Intrahepatic cholestasis of pregnancy: observational study of the treatment with low-dose ursodeoxycholic acid

Version: 2 Date: 7 June 2015

Reviewer: Andrew Mallett

Reviewer's report:

I thank the authors for their resubmission and for addressing the previously noted requested revisions.

Major Compulsory Revisions
- Nil.

Minor Essential Revisions
- Whilst I concur that the numbers in Table 3 are small and thus may potentially preclude the application of statistical analysis for significant difference, this should be clearly stated (either in the text or table itself).

Discretionary Revisions
- Nil.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests
