Reviewer’s report

Title: Patient-centered factors associated with hepatitis C treatment: a qualitative study

Version: 2 Date: 17 February 2015

Reviewer: Jens Martin Kittner

Reviewer’s report:

This is an interesting qualitative explorative study on patients’ wishes concerning peg-INF containing HCV therapy.

Minor essential Revision
Please comment on the selection of patients interviewed, and on specific characteristics of patients seeking care at VHA medical Centers.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
