Title: Upper Gastrointestinal Bleeding due to Peptic Ulcer Disease is Not Associated with Air Pollution: A Case-Crossover Study

Version: 1 Date: 7 July 2015

Reviewer: Leif Percival P Andersen

Reviewer’s report:

I have read the paper and find it very good and well written.

The purpose is clear and well defined and the methods are appropriate and well described.

Data and tables are sound and clear.

Discussion and conclusion are well balanced and limitations of the work is clearly stated.

Title and abstract cover the findings sufficiently.

I think the paper can be accepted as it is.
