Title: Is preoperative MRCP necessary for patients with gallstones? An analysis of the factors related to missed diagnosis of choledocholithiasis by preoperative ultrasound

Version: 2
Date: 7 October 2014

Reviewer: Andrea Cariati

Reviewer's report:

The discussion and the conclusion chapter must be changed according to this three articles that must be cited in the text and in the references; in fact at the moment "Preoperative MRCP cannot be recommended routinely due to costs": papers that report this are:

3) Epelboym L, Winner M al. MRCP is not a .. J Gastrointest Surg 2013 17 863-71
