Reviewer’s report

Title: The potential value of serum pepsinogen for the diagnosis of atrophic gastritis among the health check-up populations in China: a diagnostic clinical research

Version: 1 Date: 24 Feb 2017

Reviewer: Irene Coati

Reviewer's report:

Dear authors,

I really appreciate your improvements of the manuscript.

I appreciated the addition of the "ABC method" and the "OLGA" staging, and also the better explanation of your further studies.

Considering also the other reviewer's opinion, I accept now the text without more revisions.

Best regards

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
