Reviewer’s report

Title: Estimation of utility weights for major liver diseases according to disease severity in Korea

Version: 0 Date: 02 Feb 2017

Reviewer: Quirino Lai

Reviewer's report:

This is an interesting study coming from Korea in which utility weights of liver disease-related health states were estimated in the general population. The study is innovative and presents interesting conclusions. The paper is well written and surely deserves direct publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
