Reviewer’s report

Title: A rare cause of acute liver failure - a case report

Version: 0 Date: 26 Nov 2017

Reviewer: Conrado Fernandez Rodriguez

Reviewer's report:

This is an illustrative case report of a middle-aged female presenting with acute liver failure due to a massive hepatic sinusoidal infiltration by a late relapsing infiltrating ductal breast cancer. There are too few cases published from solid malignancies as cause of ALF.

Minor

1. Was transjugular liver biopsy considered in this case?. Do you think a more aggressive therapeutic approach once the diagnosis would have been reached would have change the outcome?. Please, discuss

2. Please, change Fulvestran for Fulvestrant throughout the manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
