Reviewer's report:

In my opinion, this paper is about an interesting case report.

Its topic is a very current.

The article is well organized. I have only some minor, but at the same time, important points to underline in order to obtain a better paper.

My advices are the following:

- To add more references and particularly to insert them in all sections of the text (ie, background);

- To check all the abbreviations used in the text and to add them in the "list of abbreviations" (ie, SBA, EMR);

- To check line 79, where there is an ortographic mistake ("Biopsy" with capital letter).

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
