Reviewer’s report

Title: Irinotecan-containing Doublet Treatment versus Irinotecan Monotherapy as Second-Line Choice for Advanced Gastric Cancer

Version: 1 Date: 12 Jan 2018

Reviewer: Bhavana Bhagya Rao

Reviewer's report:

This is a well performed meta-analysis that compares two commonly employed second line therapies for management of advanced gastric cancer.

The cumulative results are significant and will be of interest to the readership of this journal.

No significant revisions advised.

Minor spelling errors (significant spelled as dignificant) etc were noted.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
Quality of written English
