Small bowel metastasis from pulmonary rhabdomyosarcoma causing intussusception: a case report

1. Line 28 term "Extension study" should be reconsidered
   a. Comment
   b. Would replace with something like "staging was performed using gastroscopy etc …"

2. Line 113
   a. RMS is highly aggressive and metastatic.
   b. Comment: would remove

3. Line 121: Small bowel metastases are clinical manifestations of an advanced tumor
   a. Comment: this statement is very general. Any metastasis is advanced tumor burden by definition. Suggest to remove the sentence

4. Line 132:
   a. should be revised as the submitted case report is probably the 2nd report for this kind of presentation
   b. Another case report was noted upon search of literature

5. References
   a. Could also include

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
