Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

1. I did not recognize your revised sections. You should highlight the revised section in red with point by point statements.

2. In previous comment to authors, 1. Do authors have any new recommendation for daily practice according to these results? Author should response fully in discussion sentence.

3. In method, "p values were multiple by 4". I think "p values were multiple by 6". There are 4 variables hence total 4C2 = 6 comparisons.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
