Reviewer’s report

Title: Haemolytic Uraemic Syndrome - a rare case report of bloody diarrhoea in adults

Version: 1 Date: 19 Jul 2018

Reviewer: Nilgün Çakar

Reviewer's report:

The patient had no microangiopathic hemolytic anemia. Thrombocytopenia and renal failure can also occur for other reasons. In this case, kidney biopsy should be done for definite HUS diagnosis.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
