Reviewer’s report

Title: Prognoses of different pathological subtypes of colorectal cancer at different stages: A population-based retrospective cohort study

Version: 0 Date: 23 Jul 2019

Reviewer: Takuma Higurashi

Reviewer's report:

This population-based retrospective cohort study concluded that the patients of different pathological subtypes were only minimally different at the early stage. However, they were significantly different in prognosis and patients with MAC and SRCC have worse OS and CCS, which are mainly in advanced CRC (stages III and IV).

This is well written study and novel information, however, this study has some limitations in the following areas.

<Major>

1. One of the strength of this study is large sample, however, excluded people are too many. The study that contains many excluded may have some biases. The authors should minimize the exclusion.

<Minor>

1. The manuscript needs editing by a native English speaker.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
