Reviewer’s report

Title: Jejunogastric intussusception after Whipple procedure with B-II Reconstruction: a case report

Version: 1 Date: 16 Feb 2020

Reviewer: Manabu Kawai

Reviewer’s report:

This case report was well revised based on reviewer's comments about jejunogastric intussusception after Whipple procedure. However, there is one problem. I asked whether authors show the figure for reconstruction of Whipple procedure with Roux-en Y reconstruction. Unfortunately, I could not find out a new figure, although authors replied that they provided a simple diagram of the two methods. Authors might have just forgotten to put it on the revised manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
