Title: Improving early detection initiatives: a qualitative study exploring perspectives of older people and professionals

Version: 1 Date: 04 Apr 2017

Reviewer: Alex Hall

Reviewer's report:

Thank you for engaging with my comments, and I hope you found them useful. I feel you have addressed all the comments clearly, and I agree with your responses. I have recommended discretionary revisions because I have noticed 3 minor errors with the written English:

Line 294 - 'indicated they felt be able to deal with' - delete 'be'

Line 483 - 'did indicate to expect some problems' - should be 'did indicate that they expected some problems', or (e.g.) 'did appear to expect some problems'

Line 544- 'indicated to regard' - should be 'indicated that they regarded', or (e.g.) 'appeared to regard'

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
