Reviewer’s report

Title: What works in falls prevention in Asia: A systematic review and Meta-analysis of randomized controlled trials.

Version: 0 Date: 22 Oct 2017

Reviewer's report:

The authors had conducted an interesting and important topic to improve our understandings of the fall prevention studies performed in Asia. And the authors have done a lot of works on this paper. My main concern is whether a review merely based on a single Cochrane systematic review (Gillespie 2012) could be sufficient to make definitive conclusions.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
