Reviewer’s report

Title: The theoretical and empirical basis of a BioPsychoSocial (BPS) Risk Screener for detection of older peoples’ health related needs, planning of community programs, and targeted care interventions

Version: 1 Date: 04 Dec 2017

Reviewer: Tom Kingstone

Reviewer’s report:

I would like to thank the authors for having made changes to the original submission and for responding to previous remarks. The manuscript is much improved; really interesting work.

There does however remain a few references to ‘elders’ as opposed to older people, which you may wish to rectify for consistency.

Great job.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
