Reviewer’s report

Title: Supporting at-risk older adults transitioning from hospital to home: who benefits from an evidence-based patient-centered discharge planning intervention? Post-hoc analysis from a randomized trial

Version: 0 Date: 14 Jan 2020

Reviewer: Paolo Fabbietti

Reviewer's report:

comment 1: At page 11, line 17-19, you consider Chi-Square test as a no-parametric test, but instead is a parametric test for categorical variables

comment 2: why don't you show overall sample in this paper and you prefer a reference? It's could be more easy for a good lecture

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
