Reviewer’s report

Title: Circumcision in hemophilia using low quantity of Factor Concentrates: Experience from Dakar, Senegal

Version: 0  Date: 17 Nov 2016

Reviewer: Alauldeen Zubair

Reviewer's report:

Dear author;

1. Can please explain why ethical committee approval and patients' consent are not applicable? They very essential and no paper can be published without them.

2. Explain please clearly if the patients are Muslims and that the indication of circumcision is religious. Then why 4 patients are not circumcised until after the age of 20 years? This is very unusual for Muslims.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
