Reviewer’s report

Title: PREVALENCE OF ANEMIA AMONG ADULTS AT HAWASSA UNIVERSITY REFERRAL HOSPITAL, SOUTHERN ETHIOPIA.

Version: 2 Date: 02 Apr 2018

Reviewer: Karen Cordovil

Reviewer's report:

Dear authors,

The article is interesting because it represents epidemiological data on the prevalence of anemia and its different types.

However, the work presents some deficiencies that can be reviewed to increase the quality of the study.

1) The introduction is deficient. to improve incidence and prevalence data in the world, in Africa and Ethiopia on anemia, better define the aspects and types of anemia.

2) The goal needs to be clearer.

3) The presentation of the results in figures is very deficient. Pick up some specific literature that teaches about graphical presentation of epidemiological data.

4) I suggest reviewing the title of the work after all modifications

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No
Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English  
Please indicate the quality of language in the manuscript:
