Reviewer’s report

Title: Dengue NS1 antigen as a marker of severe clinical disease

Version: 4 Date: 30 September 2014

Reviewer: Nguyen Phuoc Long

Reviewer’s report:

This article tried to improve the outcome prediction of Dengue patients. The research question is interesting. In general, this version is better than the previous article.

Comment:

1. The figure 1B was not included in the revised manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
