Reviewer’s report

**Title:** Spatial pattern of severe acute respiratory syndrome in-out flow in 2003 in Mainland China

**Version:** 3  **Date:** 27 November 2014

**Reviewer:** Eric Lau

**Reviewer’s report:**

The paper authors have addressed most of my previous comments satisfactorily, particularly missing data were now accounted for to give a more accurate presentation of the relative frequency of movement.

**Minor Essential Revisions**
- Figures 2 & 3 have been revised after data imputation. Please confirm that Figure 5 & 6 have also been revised accordingly.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests
