Reviewer’s report

**Title:** Factors Associated with Maintenance of Antibody Responses to Influenza Vaccine in Older, Community-Dwelling Adults

**Version:** 2  **Date:** 29 November 2014

**Reviewer:** Marc PACCALIN

**Reviewer’s report:**

Minor essential revision

Discussion:
The seroprotective antibody response appears to be influenced by pre-vaccination antibody titers. Still the authors should add that this might not be sufficient to prevent influenza particularly in the elderly with co-morbid conditions.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
