Reviewer’s report

Title: Effect of Early and Current Helicobacter pylori infection on the risk of anaemia in 6.5-year-old Ethiopian children

Version: 2 Date: 11 April 2015

Reviewer: Ishag Adam

Reviewer’s report:

Major
Authors failed to mention, investigate and discuss the most important cause of anemia in this setting e.g malaria
Parasite infestation

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
