Reviewer's report

Title: Relationship between chronic hepatitis C and serum 25-hydroxyvitamin D3 levels in Japan

Version: 2 Date: 16 March 2015

Reviewer: Yoshiiku Kawakami

Reviewer's report:

This article is described relationship between chronic hepatitis C and serum 25-hydroxyvitamin D3 level in Japan.

The association between vitamin D and baseline demographic and disease characteristics in the Japanese hepatitis C patient is shown properly. Furthermore, the healthy subject is examined as contrast.

This article is thought to have useful information for readers of this journal.
